

## **Full Roll-Out of Income Tax on E-Taxation Platform**

**Maseru: 20<sup>th</sup> December 2023** - Revenue Services Lesotho (RSL) proudly announces the successful roll-out of the Income Tax module on the E-Taxation platform. This significant milestone marks a transformative leap toward a more efficient, transparent, and taxpayer-friendly experience.

The E-Taxation platform, introduced to modernize and streamline tax processes, now includes comprehensive integration of the Income Tax module. This enhancement aims to provide both individual and corporate taxpayers with a user-friendly, secure, and accessible digital environment for filing and managing income tax obligations.

Key highlights of the Income Tax Module on E-Taxation include amongst others; simplified filing process for income tax returns, reducing complexity and enhancing overall user experience. The platform offers real-time updates on taxpayers' returns, refunds, and other related transactions, providing greater transparency and peace of mind. The E-Tax platform also offers enhanced data security, and it can be accessed any time, from anywhere, allowing for greater convenience and efficiency in fulfilling tax obligations.

Revenue Services Lesotho expresses gratitude to taxpayers for their cooperation and patience during the implementation phase. The successful roll-out of the Income Tax module on the E-Taxation platform is a testament to our commitment to embracing technology for the benefit of all stakeholders. As we continue to enhance and expand our

digital services, RSL remains dedicated to fostering a tax environment that is responsive, innovative, and aligned with international best practices.
