

RSL Joins Hands to Clean Up the Nation in Operation Hloekisa Lesotho

Maseru, Lesotho – 16 May 2025 – In a show of unwavering commitment to environmental stewardship and corporate social responsibility, Revenue Services Lesotho (RSL) actively participated in the Operation Hloekisa Lesotho cleaning campaign on Friday, 16 May 2025. The clean-up took place at the Maseru Bridge – Lesotho Tractor Traffic lights at Ha Hoohlo area, a critical gateway into the Kingdom of Lesotho.

Operation Hloekisa Lesotho, relaunched in 2023 by the Right Honourable Prime Minister Ntsokoane Matekane, is a national campaign that calls for a united front in creating a cleaner, healthier, and more sustainable country. RSL has been a dedicated partner since the relaunch, continuously supporting the campaign's mission and values.

Notably, RSL has adopted the Maseru Bridge – Lesotho Tractor Traffic lights at Ha Hoohlo area as part of its environmental responsibility programme, recognizing it as the first point of contact for visitors entering Lesotho. This strategic location serves as a visual and symbolic introduction to the country, making its cleanliness and upkeep a matter of national pride.

Through its involvement in the campaign, RSL reaffirms its commitment to complementing government-led efforts aimed at raising environmental consciousness and promoting public participation in cleanliness initiatives. The organisation stands alongside communities and fellow institutions in nurturing a culture of responsibility and care for the environment.

RSL remains steadfast in its belief that collective action is essential in achieving sustainable development. By investing in cleaner public spaces and adopting key national entry points, the organisation is helping shape a healthier and greener Lesotho for all.
